How To Get Started

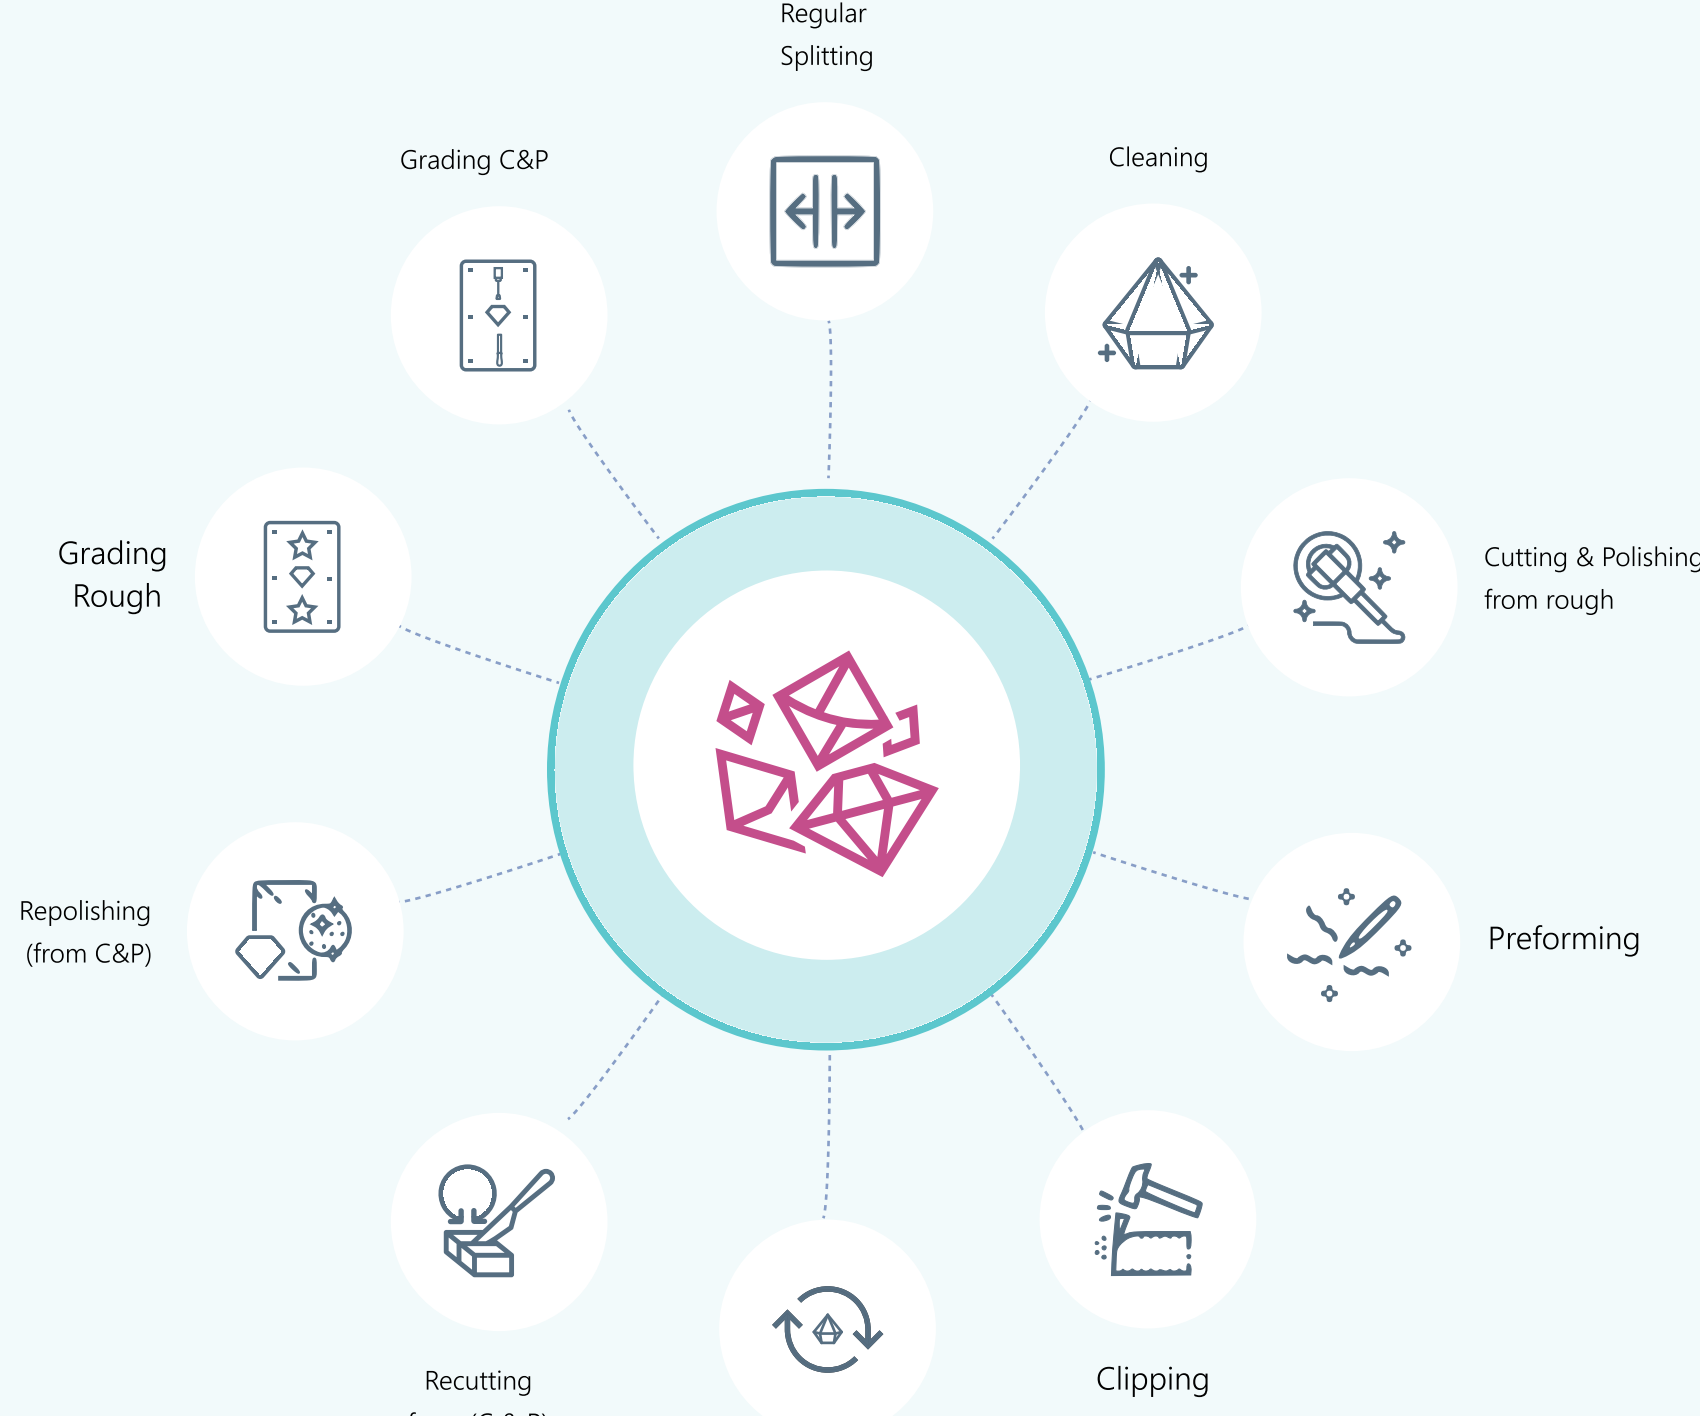

Say goodbye to complicated systems! Let GemCloud make
your life easier

Stone Split Type

GemCloud signature features will help you boost sales,
move your stock faster and gain global visibility.

- Share Quotations in Just a Few Clicks**
Create a list of gemstones matching your customer requirements and generate temporary interactive quotations.
- Sync with GemCloud Powered Marketplaces***
GemCloud multiplies your selling network by giving you the option to sync inventory with global marketplaces. Sell while you sleep.
- Multi-Level Pricing**
Set up different prices for different types of clients.

[Track Your Stone History](#)

Cost Service Type

Manage a quick and easy process of checking in new stock, barcoding, and easily tracking it. You will have secure and easy access to your customers.

- Per Carat/ Gram**
One carat is equal to 1/5 of a gram (200 milligrams). Stones are measured to the nearest hundredth of a carat
- Fixed**
A fixed cost is a cost that does not change with an increase or decrease in the amount of goods or services produced or sold.
